Chapter 1

Introduction

The Uniform Closing Dataset (UCD) is a component of the Uniform Mortgage Data Program® (UMDP®), an ongoing effort by Fannie Mae and Freddie Mac (the GSEs) at the direction of their regulator, the Federal Housing Finance Agency (FHFA), to provide a common industry dataset to support the Consumer Financial Protection Bureau's (CFPB) Closing Disclosure (CD).

Starting in 2013, the UCD was developed from the CFPB's Know Before You Owe (KBYO) regulation. In defining the new dataset, the GSEs used all of the field data defined on the Closing Disclosure (CD), along with the addition of a few GSE-specific fields. The first UCD specification was published in February 2015, with a final version re-published in January 2017.

While the GSEs are aligned on the data to be collected, the timeframe for the collection mandate, and supporting the industry with UCD implementation, Fannie Mae and Freddie Mac have implemented separate collection tools for the data.

UCD Timeline

- **September 25, 2017 -** Borrower data and Closing Disclosure is required
  - UCD is required for all loans delivered with a Note Date on or after September 25, 2017.
  - Only the Borrower data and Closing Disclosure are required in the UCD file (i.e., the Model form, or if using a split disclosure, the Borrower-only form).
  - Any loan with a Note Date on or after September 25, 2017 that is delivered without a submitted UCD file will not be accepted.
- **Q3 2018 - S**eller data and Closing Disclosure are required. (Lenders are encouraged to send the seller data prior to this date if it is available).

Encompass Supports UCD Collection

To help support the UCD data requirements, Ellie Mae has worked closely with Fannie Mae and Freddie Mac to ensure Encompass provides a comprehensive set of tools that support UCD data collection and exports to the GSEs:

- Closing Disclosure (CD) input and output forms
- Mark CDs as *Final* in the eFolder and Disclosure Tracking tool
- *Export UCD* option in the Encompass Pipeline
- Integration with Fannie Mae's UCD Collection Solution
- Integration with Freddie Mac's Loan Closing Advisor
- Once a loan's UCD and final CD data is exported, the information is recorded in Encompass regardless of who actually produced the CD.
  - In order to access the Encompass UCD integration, you must be working in a loan file. When you submit an order, it is for that specific loan. (Encompass does not support UCD for batch loans at this time.)

This document provides detailed information about the setup required to access UCD tools in Encompass, where to find the UCD data required by the GSEs, working with UCD data on the Closing Disclosure, how to generate, export, and submit UCD data to the GSEs, and more:

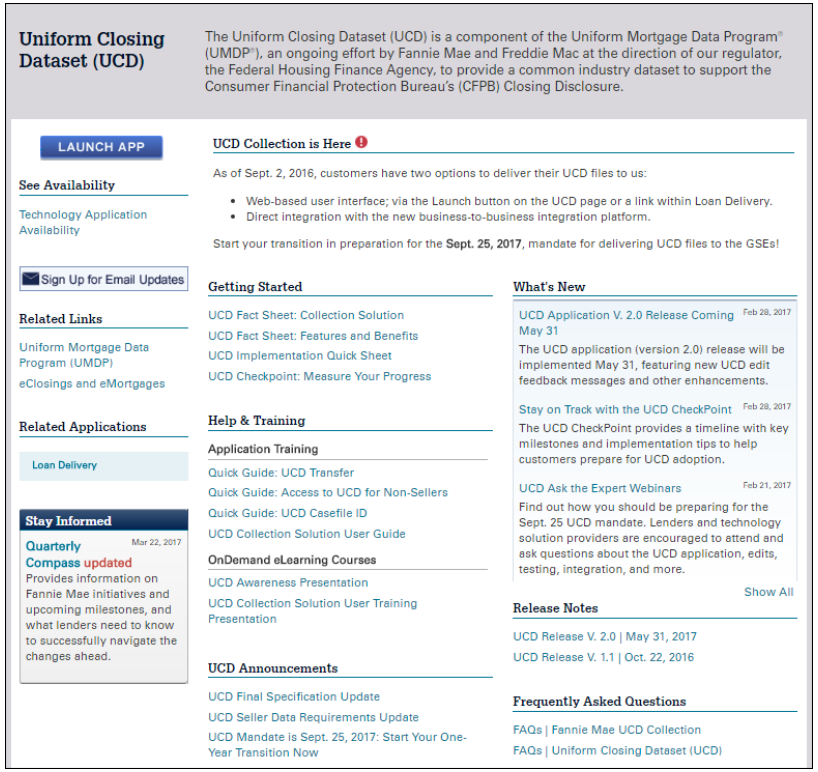
- **Chapter 2, "Setup and Prerequisites for the UCD Tools"**, Page 3 provides detailed instructions for configuring the settings for the various UCD tools and features in Encompass.
- **Chapter 3, "Working with the Closing Disclosure"**, provides information about the UCD data fields on the Closing Disclosure Page 3 and guidance on entering and disclosing adjustments, credits, escrow balance transfers and more.
- **Chapter 4, "Generating and Submitting UCD Data"**, explains how to generate and save the UCD loan data XML file to your computer.
- **Appendix A, "UCD Field Mapping"**, lists the required UCD data points and the fields in Encompass where this data is entered.

Accessing the UCD Collection Solutions from Outside of Encompass

While you can connect to Fannie Mae and Freddie Mac's UCD collection solution directly from Encompass, it's still important to know how and where to access the solution as some future functionality may require you to access it from outside of Encompass.

To Access the Fannie Mae UCD Collection Solution:

1 Go to the UCD page on fanniemae.com.



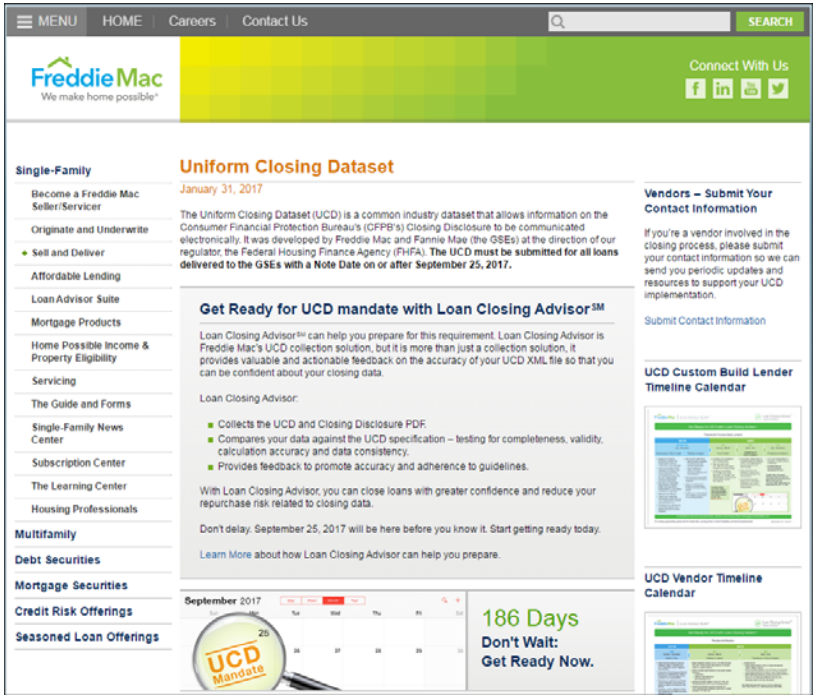
2 In the top-left corner, click the **LAUNCH APP** button.

3 Using the assigned login credentials, Fannie Mae sellers and non-sellers can access the UCD collection solution.

- For existing Fannie Mae sellers, register for access through Technology Manager. (Technology Corporate Administrator and User Administrators can set up and manage user access for UCD users.)
- For Fannie Mae non-sellers, registration and access options depend on your current credentials for the UCDP/CU applications. Refer to the Quick Guide: *Access to UCD for Non-Sellers* provided on the UCD page on fanniemae.com.

To Access the Freddie Mac UCD Collection Solution:

- Go to the UCD page on freddiemac.com.



Freddie Mac's Loan Closing Advisor is an important offering in the Loan Advisor Suite℠. With this UCD collection solution, you can easily send closing data to Freddie Mac in accordance with the UCD specification.

Chapter 2

Setup and Prerequisites for the UCD Tools

The following Encompass setup requirements must be performed by the Encompass administrator (or other authorized user) in order for users to access and use the UCD tools in Encompass.

- Persona Access to UCD Export Option
- Grant User Group access to print Closing Disclosure
- Configure Persona access to Closing Disclosure
- Prior to using the Disclosure Tracking Tool, you can specify how disclosure history entries are added to the Disclosure Tracking tool and whether or not to include the day when a disclosure is sent when calculating the Compliance Timeline. (The tool automatically tracks the Closing Disclosure by default.)
- Map UCD fees to Corresponding Fees in the Encompass Compliance Service (optional)

Grant Access to the UCD Export Option

Personas represent job functions in your company. Each persona defines access to functions, forms, and tools. One or more personas are assigned to each user.

In order for a user to export UCD data, they must be granted permission (via their persona) to access the UCD Export option provided in the Encompass Pipeline.

To Grant Access to UCD Export:

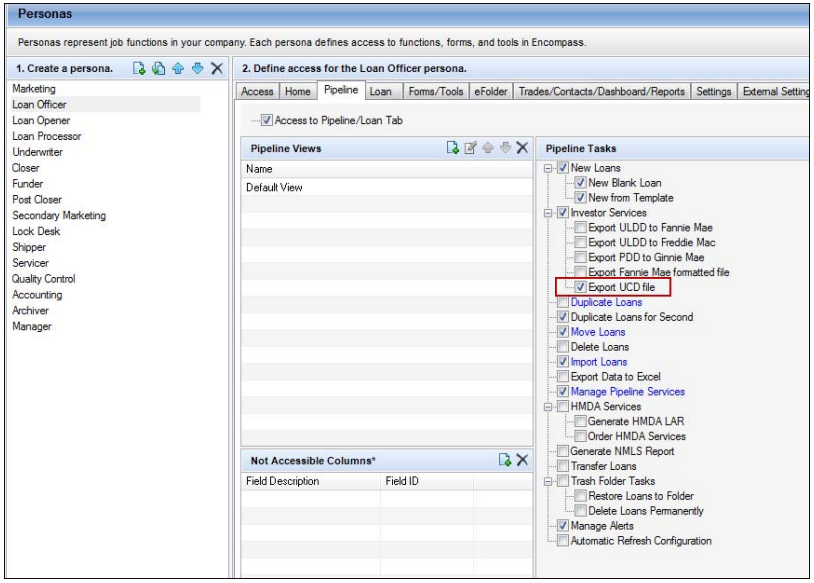
1 On the menu bar, click **Encompass**, and then click **Settings**.

2 On the left panel, click **Company/User Setup**, and then click **Personas**.

3 In the *Create a persona* panel, click to select a persona.

4 In the right panel, click the **Pipeline** tab.

5 In the *Pipeline Tasks* section, select the **Export UCD** file check box.



6 Click the **Save** icon.

Grant Access to Print Output Forms

To make the Closing Disclosure (CD) output forms available to users, administrators must grant users access to the forms. Access is granted to user groups. All users who are members of the authorized user group will have access to the documents.

To Grant Access to the Closing Disclosure Output Form:

1 On the menu bar, click **Encompass**, and then click **Settings**.

2 On the left pane, click **Company/User Setup**, and then click **User Groups**.

3 Select a user group on the Create a Group panel.

4 Click the **Resources** tab.

5 Click the **New** icon next to the Standard Print Forms category.

6 On the Standard Print Forms window, select forms from the All Standard Print Forms list, and then click the **right-arrow** button to move the forms to the Selected Forms list.

- The following KBYO output forms are available to select: *Loan Estimate*, *Loan Estimate (Alternate)*, *Closing Disclosure*, *Closing Disclosure (Alternate)*, *Closing Disclosure (Seller)*

7 Click **OK** to add the selections to the user group.

8 When finished, click the **Save** icon on the User Groups screen.

Configure Disclosure Tracking Settings

Use the Disclosure Tracking Settings to define:

- How disclosure history entries are added to the Disclosure Tracking tool.
- Whether or not to include the day when a disclosure is sent when calculating the Compliance Timeline.

To Configure Compliance Timeline Calculations:

1 On the menu bar, click **Encompass**, and then click **Settings**.

2 On the left panel, click **Loan Setup**, and then click **Disclosure Tracking Settings**.

3 Click the **New** icon.

4 On the Disclosure Tracking Forms window, select the forms to track as follows:

- Click the **Form Groups** tab, and then select a Public or Personal forms group
- Or, click the **Standard Forms** tab, and then select a category of forms (such as General Forms)
- Or, click the **Custom Forms** tab and select the Public or Personal folder containing the custom forms.

5 Select forms from the left-hand list and click **Add** to move them to the Selected Forms list

6 On the Selected Forms list:

- Select a form and click the **Up** or **Down** arrows to change the list order.
- Select a form and click **Remove** to remove it from the list.

7 Click **OK** to close the window.

8 Select a form and click the **Delete** icon to delete it from the list.

- The REGZ-Truth-In-Lending, 2010 GFE, Loan Estimate, Closing Disclosure, Anti-Steering Safe Harbor Disclosure, and 2015 Settlement Service Provider List forms are listed by default and cannot be deleted.

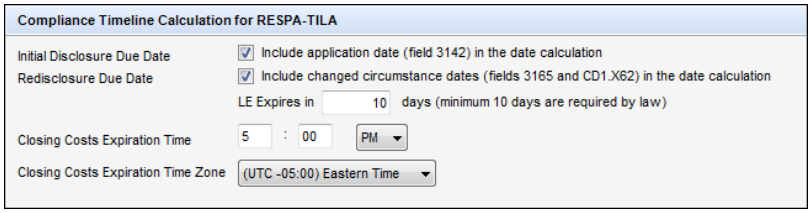
9 In the *Select the events that will trigger recording of disclosures* section, configure how disclosure history entries are added to the Disclosure Tracking tool. The settings applied here apply only to the forms listed in the upper section of the Disclosure Tracking Settings.

- Select **Create a record when disclosures are printed** to automatically add a disclosure history entry every time a form is printed.
- Select **Prompt users before a record is created** to trigger a Disclosure Tracking prompt every time a form is printed. Users will click Yes when prompted to add the disclosure history entry.
- Select **Create a record when disclosures are previewed** to automatically add a disclosure history entry every time a form is previewed.
- Select **Prompt users before a record is created** to trigger a Disclosure Tracking prompt every time a form is previewed. Users will click Yes when prompted to add the disclosure history entry.
- Select **Create a record when disclosures are sent using the eFolder** to automatically add a disclosure history entry every time a form in the forms list is sent, printed, or previewed using the eFolder.
- Select **Users can manually create disclosure records** to enable users to manually add disclosure history entries on the Disclosure Tracking tool.

10 In the *Copy of disclosures* section, select a check box if you want Encompass to save a local copy of a disclosure document when it is printed or sent electronically from within the eFolder. If a copy has been saved, loan team members can click the **View Document** button on the Disclosure Tracking tool to view and print a copy of the document(s).

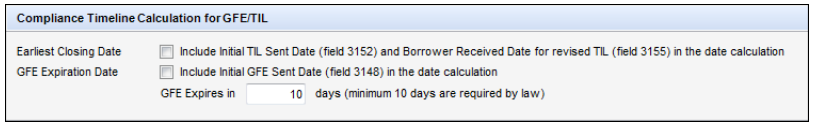
- Select **Save copy of disclosures when disclosing from Print Menu** to save a local copy of disclosure documents that are printed.
- Select **Save copy of disclosures when disclosing from eFolder** to save a local copy of disclosure documents that are sent electronically. (These are disclosures sent to borrowers for their information only, as part of an initial disclosure (i.e., eDisclosure) package, or in separate document requests).
- If you do not select a check box, no copies are saved and the **View Document** button will be hidden, thus preventing the loan team member from viewing or printing the document(s).

11 In the *Compliance Timeline Calculation for RESPA-TILA* section:



- **Initial Disclosure Due Date:** Select the check box to include the Application Date (field ID 3142; the day when the 2010 GFE is received with all of the required fields populated or the day when the Loan Estimate received with all of the required fields populated) when calculating the 2010 GFE's Initial Disclosure Due Date (field ID 3143) or the LE Due date (field ID 3143) on the Disclosure Tracking tool.
- **Redisclosure Due Date:** Select the check box to include the Changes Received Date (field ID 3165 or CD1.X62; the day when the changed circumstance is indicated on the 2010 GFE (field ID 3168)) or the Closing Disclosure Page 1 (field ID CD1.X61) when calculating the Revised GFE Due Date (field ID 3167) or the Revised CD Due Date (field ID CD1.X63) (i.e., the Changes Received Date is considered Day 1)
- Enter the number of days before the Loan Estimate expires. For example, if you enter *10*, the Loan Estimate will expire on the 10th day. A minimum of 10 days is required by law.
- Enter the time of day when the closing costs disclosed on the Loan Estimate expire.
- Select the time zone to use for the closing costs expiration time.

12 In the *Compliance Timeline Calculation for GFE/TIL* section:



- **Earliest Closing Date:** Select the check box to include the Initial TIL Sent Date (field ID 3152; the day the first version of the REGZ-TIL is sent to the borrower) or the Revised TIL Borrower Received Date (field ID 3155; the day the revised version of the REGZ-TIL is received by the borrower) when calculating the Earliest Closing Date (field ID 3147).
- **GFE Expiration Date:** Select the check box to include the Initial GFE Sent Date (field ID 3148; the day the first version of the GFE is sent to the borrower) when calculating the GFE Expiration Date (field ID 3140) on the 2010 GFE.
- Enter the number of business days for which the GFE will be effective after it is disclosed in the GFE Expires in text box.
  - This number is added to the GFE Date (field ID 3170) to determine Important Dates #2 (field ID NEWHUD.X2).
  - Once disclosed, Important Dates #2 (field ID NEWHUD.X2) will copy over to the GFE Expiration Date (field ID 3140).
  - A business day is any day the lender is open to conduct business according to the Reg-Z Business Day Calendar in the Compliance Calendar settings.

NOTE: *As an example, in this scenario the* ***GFE Expiration Date*** *check box is not selected,* ***GFE Expires in*** *is set to 10 business days, and Saturday has been designated as a business day on the Our Company Calendar. If the GFE is sent on 4/01/2017, the GFE will not expire until the end of 4/12/2017. Since the GFE Expiration Date check date is not selected, the day when the initial GFE is sent is not included when calculating the GFE Expiration Date.*

13 Click the **Save** icon.

Map UCD Fees to Corresponding Fees in the Encompass Compliance Service

Use the Itemization Fee Management setting to create a list of predefined closing costs that users can select when completing the 2015 Itemization form. These fields can then be mapped to the appropriate fee fields in the Encompass Compliance Service. Users can then order a compliance report without requiring an administrator to map manually entered closing fees as they are added to the system.

When applied, the predefined fee descriptions are assigned to the appropriate sections of the 2015 Itemization where users can select them from the drop-down lists for the appropriate fields. Users must select fees from the predefined list unless a persona is given permission to manually overwrite and enter fees.

To Access the Setting:

1 On the menu bar, click **Encompass**, and then click **Settings**.

2 On the left panel, click **Tables and Fees**, and then click **Itemization Fee Management**.

Use the Fee List tab to select the predefined fee descriptions that will be available to your users, and to select the sections of the 2015 Itemization where they will be available to users. When finished, click the **Save** icon to save your changes.

Map UCD Fees

Select fees that are currently in your Fee List and assign them to a corresponding UCD fee provided by the Encompass Compliance Service. All fees must be mapped to specific fees in the Encompass Compliance Service in order for the compliance reports to produce complete and accurate results. The UCD fees are intended for the fields on the Closing Disclosure form.

For detailed information about how the Encompass Compliance Service interprets and treats specific fees, as well as tips and best practices for managing and mapping fees, refer to the *Using the Encompass Compliance Service* guide. This guide also provides a description of each mapped UCD field available in the Encompass Compliance Service.

1. On the Fee List tab, locate the closing fee in the Fee List.
2. Locate the UCD fee in the UCD Fees list in the bottom-right corner of the screen.
3. Select **Show All** to display the full list of available UCD fees.
4. Drag the fee to the Fee List, and then drop the UCD fee on the Encompass fee. The fee name displays in the Mapped UCD fee column accordingly.
   - The Encompass Compliance Service truncates fee names containing the text string "To: [a service provider or contact name]" for Fee mapping purposes. For example, "Flood Certificate To: Landsafe Flood" will be truncated to "Flood Certificate" and that will be used for mapping purposes.

Chapter 3

Working with the Closing Disclosure

The Closing Disclosure (CD) input forms (pages 1-5) enable you to review, edit, or enter information that is populated to the Closing Disclosure output form that is provided to the borrower at least three business days prior to consummation.

Use the Closing Disclosure Page 3 to review the Calculating Cash to Close and Summaries of Transaction information that will be populated on the Closing Disclosure output form. This form is used to populate page 3 of the Closing Disclosure output form.

To Access the Closing Disclosure Page 3:

1 In Encompass, open a loan file.

2 Click the **Forms** tab, and then click **Closing Disclosure Page 3**.

NOTE: *For mortgage transactions without a seller, an alternate version of the Closing Disclosure Page 3 is used. The alternate version includes a different Calculating Cash to Close section and a Payoffs and Payments section instead of a Summaries of Transactions section used on the standard version.*

The standard version of the Closing Disclosure Page 3 is disclosed for transactions with a seller. The standard version is enabled when the **Use Alternate** check box is cleared in the *Calculating Cash to Close* section on the Loan Estimate - Page 2 input form.

Adjustments and Credits

To enable Encompass users to enter detailed information required for adjustments and other credits fields for entering detailed information about borrower and seller adjustments and other credits are available in pop-up windows that are accessible by clicking icons on the Closing Disclosure Page 3.

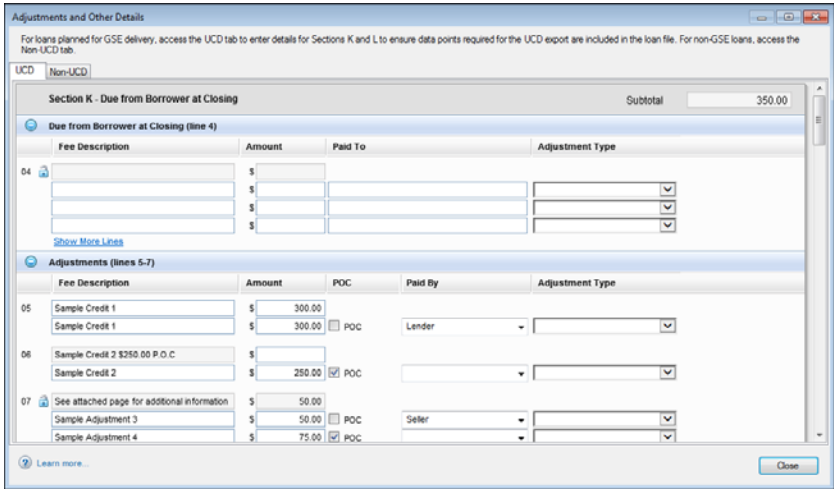
- To access Borrower UCD fields, in the Calculating Cash to Close section, click the **Edit** icon in the Final column in the row for Adjustments and Other Credits.
- To access Seller UCD fields, in the Summaries of Transactions section, click the **Edit** icon next to the Seller's Transaction heading.

Borrower Adjustment and Other Details

The Adjustments and Other Details pop-up window displays when you click the **Edit** icon for Adjustments and Other Credits in the Calculating Cash to Close section on the Closing Disclosure Page 3. The pop-up window includes a UCD tab that includes fields for detailed entries for borrower adjustments and credits from sections K through L in the Summaries of Transactions section of the Closing Disclosure Page 3. The detailed entries are required when submitting UCD export XML files to Fannie Mae and Freddie Mac.

UCD Tab

The **UCD** tab contains fields for detailed entries for borrower adjustments and credits from sections K through L in the Summaries of Transactions section of the Closing Disclosure Page 3. The detailed entries are required when submitting UCD export XML files to Fannie Mae and Freddie Mac.

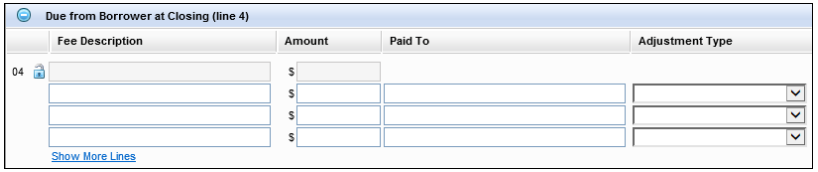


The following sections describe the various entries on the tab.

Line K04

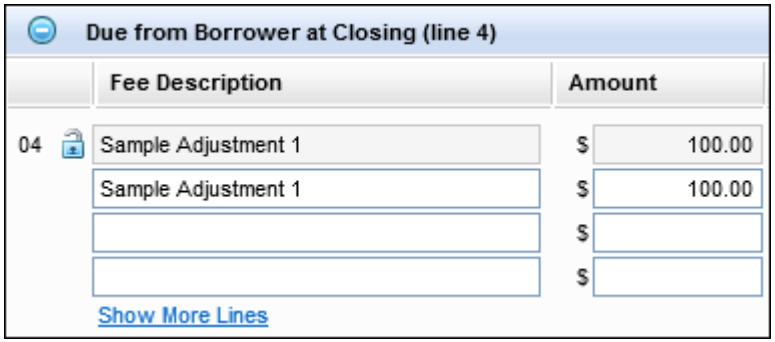
The line K04 section displays four lines by default. With the exception of the first line, they are all free entry lines for itemizing line K04 entries. The itemized lines include fields that can be populated with a fee description, amount, the name of

the fee recipient, and an adjustment type, which is selected from a drop-down list of predefined categories. An additional 18 free entry lines are available by clicking the **Show More Lines** link.



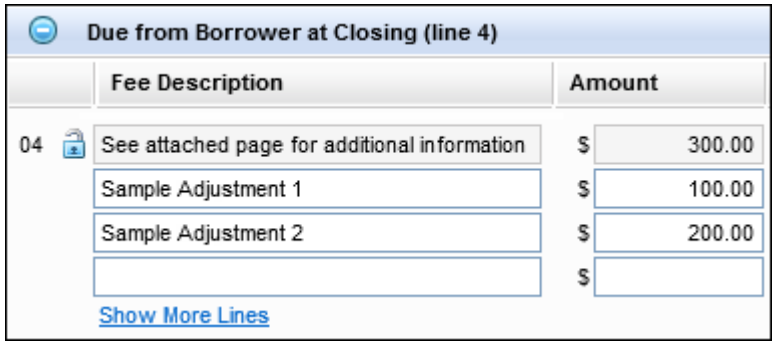
The first line in the line K04 section includes a Fee Description field and an Amount field. The Amount field is an aggregate field that includes the total of all the amounts entered in the itemized entries. The Fee Description field in the first line is populated in the following ways:

- If there is only one itemized entry, the name of the itemized entry is populated in the Fee Description field in the first line.



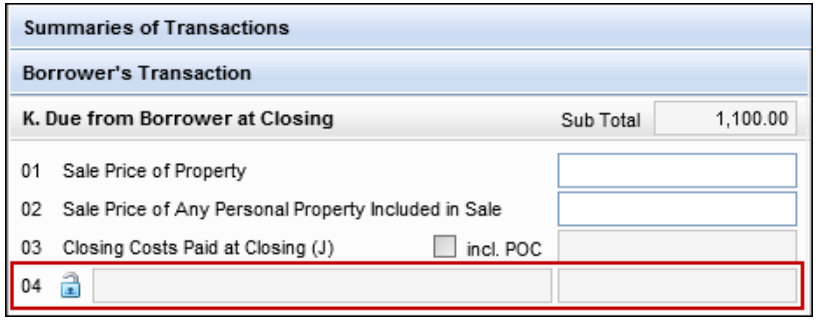
The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

- If there are multiple itemized entries, the aggregate amount is entered in the first row and the following text is entered in the description field: *See attached page for additional information*.



- The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

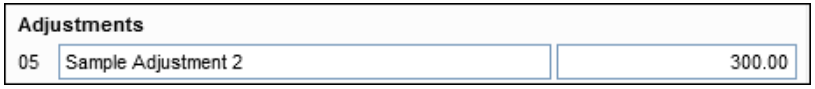
Click the **Lock** icon on the pop-up window or on the Closing Disclosure Page 3 to edit the description.



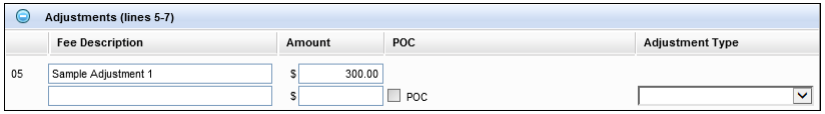
Lines K05-K06, L06, and L08-L10

Lines K05-K06, L06, and L08-L10 are used to indicate an adjustment that is paid outside closing (POC). The first line for these entries is initially populated with the description and amount entered on the Closing Disclosure Page 3.

Fee from Closing Disclosure Page 3:

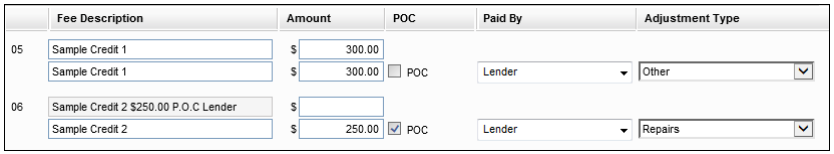


Fee initially copied to pop-up window:

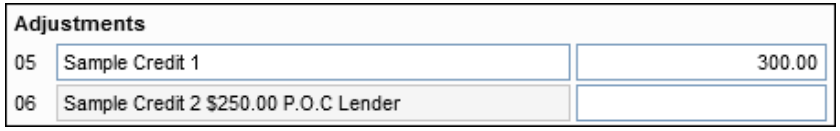


The second line of the entry is used to enter information that describes the POC fee. To indicate that a fee is POC, enter a field description and amount in the second line, and then select the **POC** check box. In the Paid By field, enter or select the entity paying the fee. In the Adjustment Type field, select an adjustment type from a preconfigured drop-down list.

If the fee is not POC, the fee description and amount from the second line is copied to the fee description and amount for the first line. If the fee is POC, the amount field on the first line is cleared, and the description on the first line is followed by the fee amount, a **P.O.C.** indicator, and the Paid By entry from the second line.



The description for the pop-up window is copied to the fee description on the Closing Disclosure Page 3, and the Amount field is cleared.

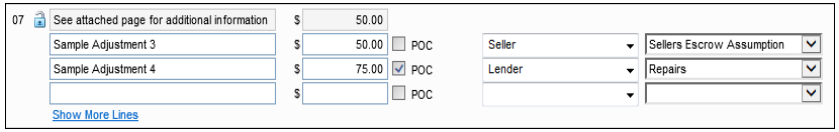


NOTE: *These lines also include an* ***Adjustment Type*** *field where you can select an adjustment type from a preconfigured drop-down list. Line L06 also includes a a* ***Paid To*** *field that enables you to enter the recipient's name.*

Lines K07, L07, and L11

Lines K07, L07, and L11 are used to itemize adjustments for each line and to indicate whether any of the adjustments are paid outside closing (POC).

The first line in each section includes a Fee Description field and an Amount field. The Amount field is an aggregate field that includes the total of all the amounts entered in the itemized entries. The remaining lines in each section are free entry lines for itemizing line entries and identifying them as POC fees.



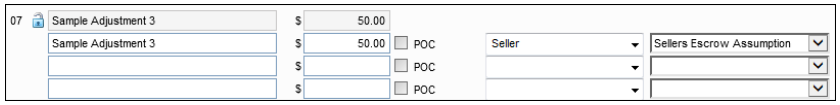
To indicate that a fee is POC, enter a field description and amount in the itemized line, and then select the **POC** check box. In the Paid By field, enter or select the entity paying the fee. In the Adjustment Type field, select an adjustment type from a preconfigured drop-down list.

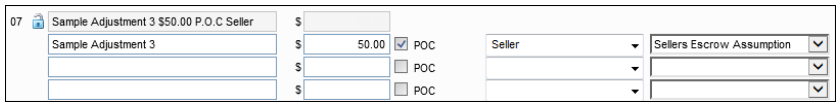
Line K07 has an additional 3 free entry lines that are available by clicking the **Show More Lines** link at the bottom of the section.

NOTE: *Line L07 also includes Paid To fields for entering the name of the recipient.*

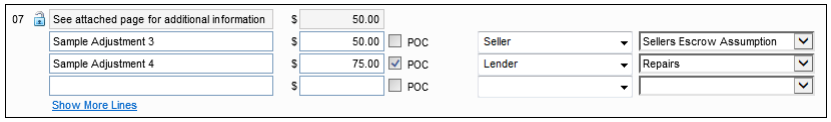
The Fee Description field in the top line of each section is populated in the following ways:

- When there is only one itemized entry:
  - If the fee is not POC, the fee description and amount in the first line are populated with the fee description and amount from the itemized entry.
  - If the fee is POC, the amount is cleared in the first line and the fee description in the first line is populated with the description from the itemized entry, followed by the fee amount, a P.O.C. indicator, and the Paid By entry from the itemized entry.





- If there are multiple itemized entries, the following text is entered in the description field: *See attached page for additional information*. This text refers to the Closing Disclosure Addendum output form, which lists the itemized entries. The amount of any POC fields are appended to the end of the text in the description field. The amount of any non-POC fields are populated in the amount field.

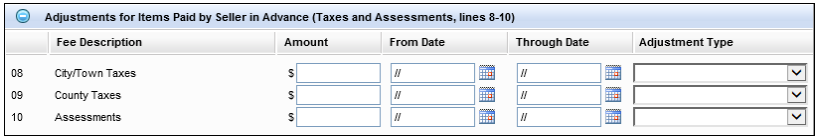


The description and amount form the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

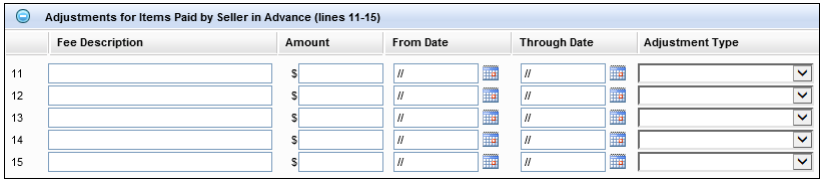
Lines K08-K15 and L12-L16

Lines K08-K15 and L12-L16 enable entry of adjustments that are paid for a specified amount of time. The entries include lines with fields for entering an adjustment amount and for selecting payment dates and adjustment types.

Lines K08-K10 and L12-14 are predefined adjustments for taxes and assessments.

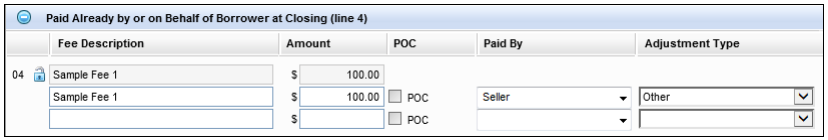


Lines K11-K15 and L15-16 enable users to enter their own descriptions for the fees.



Line L04

The line L04 section displays three lines.

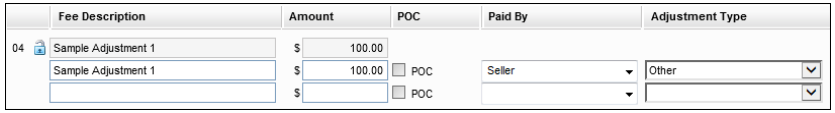


The first line in the line L04 section includes a Fee Description field and an Amount field. The Amount field is an aggregate field that includes the total of all the amounts entered in the itemized entries.

The second and third lines are free entry lines for itemizing line L04 entries. These lines include fields for entering a fee description and amount, and for selecting an adjustment type from a drop-down list of predefined categories.

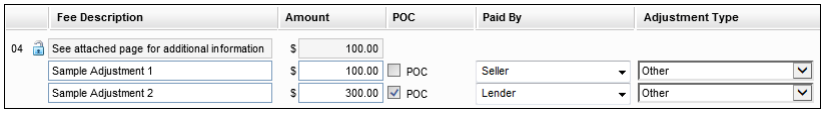
The first line is populated in the following ways:

- If there is only one itemized entry, the name and amount of the itemized entry are populated in the Fee Description and Amount fields in the first line.



The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

- If there are multiple itemized entries, the aggregate amount is entered in the first row and the following text is entered in the description field: *See attached page for additional information*. This text refers to the Closing Disclosure Addendum output form, which lists the itemized entries.

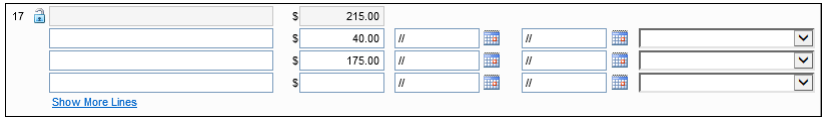


The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

Click the **Lock** icon on the pop-up window or on the Closing Disclosure Page 3 to edit the description.

Line L17

Line L17 enables entry of itemized adjustments that are paid for a specified amount of time. The first line in the line L17 section includes a Fee Description field and an Amount field. The Amount field is an aggregate field that includes the total of all the amounts entered in the itemized entries.



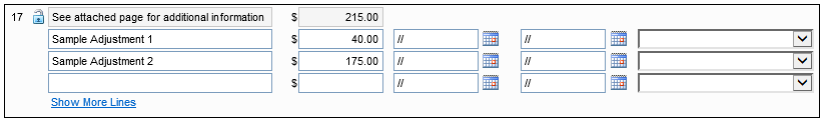
Use the remaining three rows to record itemized entries for L17. These rows include fields for entering descriptions and adjustment amounts, and for selecting payment dates and adjustment types. An additional 15 free entry lines are available by clicking the **Show More Lines** link.

The Fee Description field in the first line is populated in the following ways:

- If there is only one itemized entry, the name and amount of the itemized entry is populated in the Fee Description field in the first line.

  The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

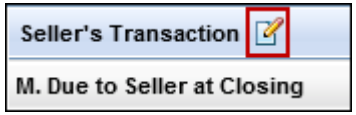
- If there are multiple itemized entries, the aggregate amount is entered in the first row and the following text is entered in the description field: *See attached page for additional information*. This text refers to the Closing Disclosure Addendum output form, which lists the itemized entries.



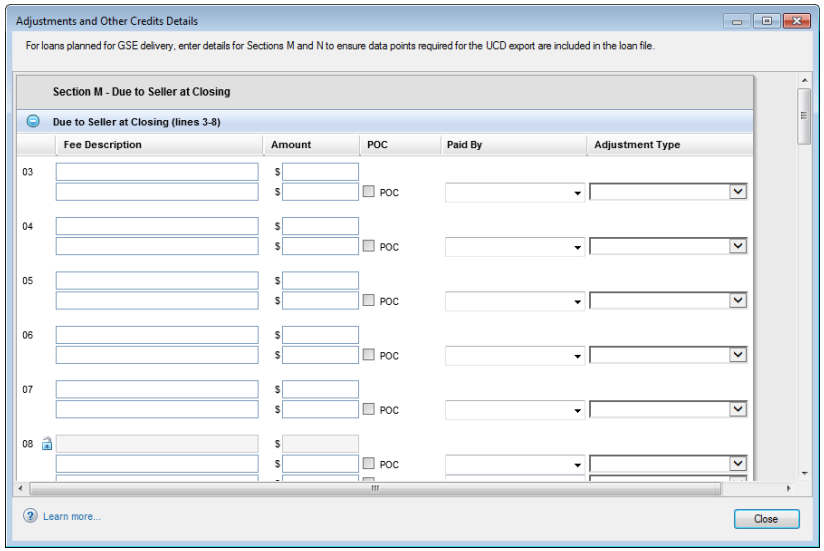
The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

Seller Adjustments and Other Credit Details

The Seller Adjustments and Other Credit Details pop-up window enables the entry of detailed UCD export information for seller transactions in sections M and N in the Summaries of Transactions section on the Closing Disclosure Page 3. The pop-up window displays when an Encompass user clicks the **Edit** icon at the top of the Seller's Transaction column in the Summaries of Transactions section on the closing Disclosure Page 3 input form.



.

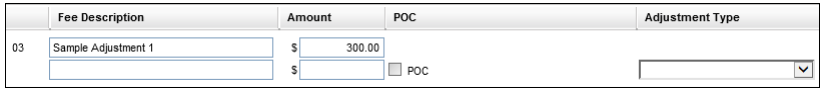


The following sections describe the various entries on the window.

Lines M03-M07

Fee from Closing Disclosure Page 3:

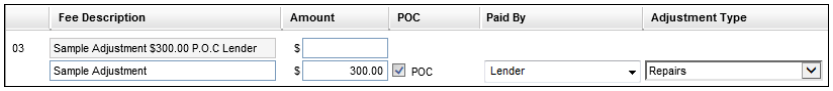
Fee initially copied to pop-up window:



Lines M03-M07 are used to indicate an adjustment that is paid outside closing (POC). The first line for these entries is initially populated with the fee amount entered on the Closing Disclosure Page 3.

The second line of each of these entries is used to enter information that describes the POC fee. It includes a **POC** check box and a drop-down list that enables users to select To indicate that a fee is POC, enter a field description and amount in the second line, and then select the **POC** check box. In the Paid By field, enter or select the entity paying the fee. In the Adjustment Type field, select an adjustment type from a preconfigured drop-down list.

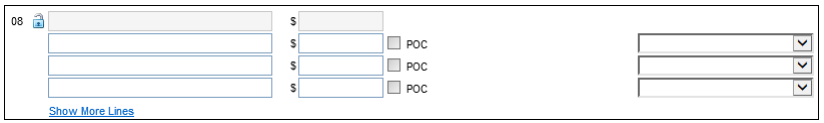
The Fee Description from the second line is copied to the Fee Description field for the first line. If the fee is POC, the amount field on the first line is cleared, and the description on the first line is followed by the fee amount, a P.O.C. indicator, and the Paid By entry.



The description for the pop-up window is copied to the fee description on the Closing Disclosure Page 3, and the fee amount field on the Closing Disclosure Page 3 is cleared.

Line M08

Lines M08 is used to itemize adjustments for line M08 and to indicate whether any of the adjustments are paid outside closing (POC). The first line includes a Fee Description field and an Amount field. The Amount field is an aggregate field that includes the total of all the amounts entered in the itemized entries that are not marked as POC. The remaining lines in each section are free entry lines for itemizing entries and identifying them as POC fees.

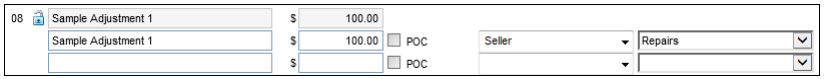


To indicate that a fee is POC, enter a field description and amount in the itemized line, and then select the **POC** check box. In the Paid By field, enter or select the entity paying the fee. In the Adjustment Type field, select an adjustment type from a preconfigured drop-down list. An additional 3 itemized entry lines are available by clicking the **Show More Lines** link.

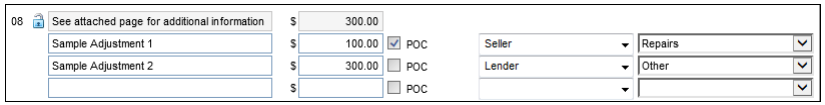
The Fee Description field in the top line is populated in the following ways:

- When there is only one itemized entry:
  - If the fee is POC, the amount is cleared in the first line and the fee description in the first line is populated with the description from the itemized entry, followed by the fee amount, a **P.O.C.** indicator, and the Paid By entry from the itemized entry.

  - If the fee is not POC, the fee description and amount in the first line are populated with the fee description and amount from the itemized entry.



- When there are multiple itemized entries, the following text is entered in the description field: *See attached page for additional information*. This text refers to the Closing Disclosure Addendum output form, which lists the itemized entries. The sum of all non-POC fields are populated in the amount field on the first line.



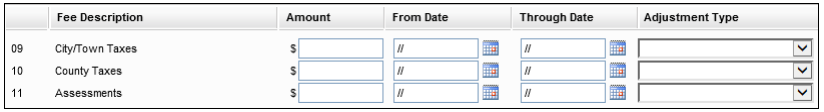
The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

Click the **Lock** icon on the pop-up window or on the Closing Disclosure Page 3 to edit the description.

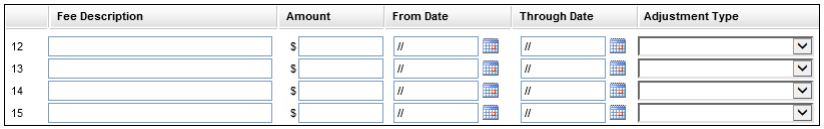
Lines M09-M15 and N14-N18

Lines M09-M15 and N14-N18 enable entry of adjustments that are paid for a specified amount of time. The entries include lines with fields for entering an adjustment amount and for selecting payment dates and adjustment types.

Lines M09-M11 and N14-16 are predefined adjustments for taxes and assessments.

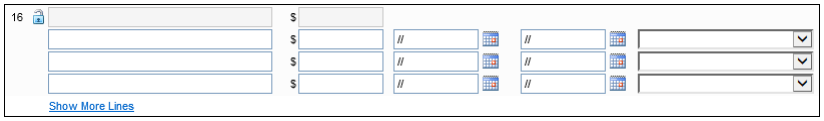


Lines M12-M15 and N17-N18 enable users to enter their own descriptions for the adjustments.



Lines M16 and N19

Lines M16 and N19 enable entry of itemized adjustments that are paid for a specified amount of time. The first line in each section includes a Fee Description field and an Amount field. The Amount field is an aggregate field that includes the total of all the amounts entered in the itemized entries. The remaining entries are lines for recording itemized entries and include fields for entering descriptions and adjustment amounts, and for selecting payment dates and adjustment types.



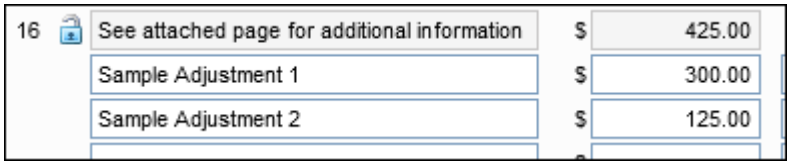
An additional 15 free entry lines are available in each section by clicking the **Show More Lines** link.

The Fee Description field in the first line is populated in the following ways:

- If there is only one itemized entry, the name of the itemized entry is populated in the Fee Description field in the first line.

The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

- If there are multiple itemized entries, the aggregate amount is entered in the first row and the following text is entered in the description field: *See attached page for additional information*. This text refers to the Closing Disclosure Addendum output form, which lists the itemized entries.



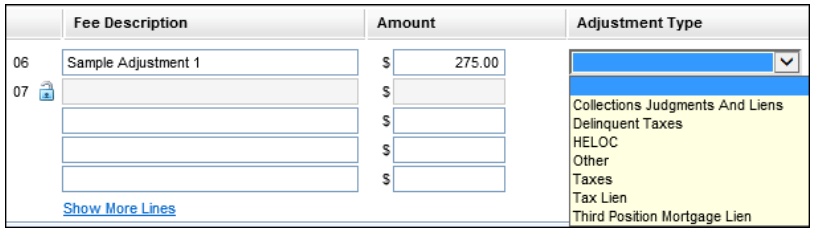
The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

Lines N06 and N09-N12

Lines N06 and N09-N12 are used to select an Adjustment Type for an entry on the Closing Disclosure Page 3. The first line for these entries is initially populated with the description and amount entered on the Closing Disclosure Page 3.

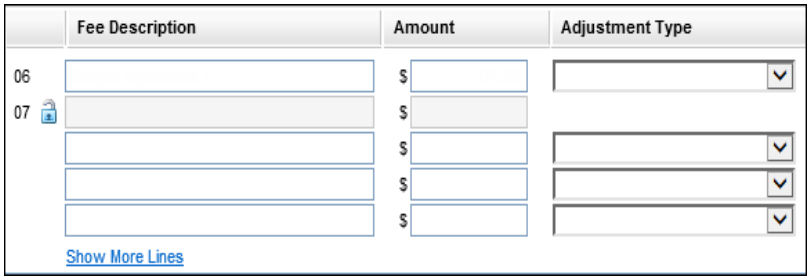
Fee from Closing Disclosure Page 3

Fee initially copied to pop-up window. Use the pop-up window to select an Adjustment Type from the list.



Lines N07 and N13

Lines N07 and N13 enable entry of itemized adjustments. The first line in each section includes a Fee Description field and an Amount field. The Amount field is an aggregate field that includes the total of all the amounts entered in the itemized entries. The remaining entries are lines for recording itemized entries, including fields for entering descriptions and adjustment amounts, and for selecting adjustment types.



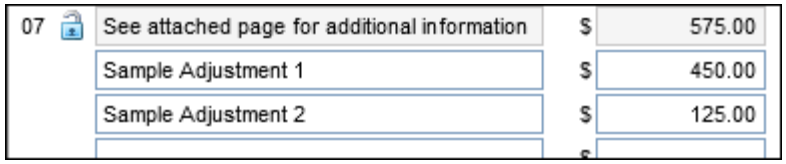
Additional free entry lines are available in each section by clicking the **Show More Lines** link.

The Fee Description field in the first line is populated in the following ways:

- If there is only one itemized entry, the name of the itemized entry is populated in the Fee Description field in the first line.

The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

- If there are multiple itemized entries, the aggregate amount is entered in the first row and the following text is entered in the description field: *See attached page for additional information.* This text refers to the Closing Disclosure Addendum output form, which lists the itemized entries.



The description and amount from the first row are copied back to the corresponding entry on the Closing Disclosure Page 3.

Chapter 4

Generating and Submitting UCD Data

Use the options in Encompass to export UCD data to an XML file, save it to your computer, and submit the data to Fannie Mae and Freddie Mac.

Marking the Closing Disclosure as Final

Once you are ready to send Closing Disclosure data to Fannie Mae or Freddie Mac (along with other UCD data) you can mark the CD as *Final* to ensure it is the data from this CD that is sent. Use the options in the eFolder and the Disclosure Tracking tool to mark the CD as *Final*. (You must complete the required steps in both the eFolder and the Disclosure Tracking tool in order for Encompass to recognize the CD as *Final*.)

To Mark a CD as Final in the eFolder:

1 Open the loan file with the CD data that you want to export, and then click the **eFolder** icon.

2 In the eFolder, click the **New** icon.

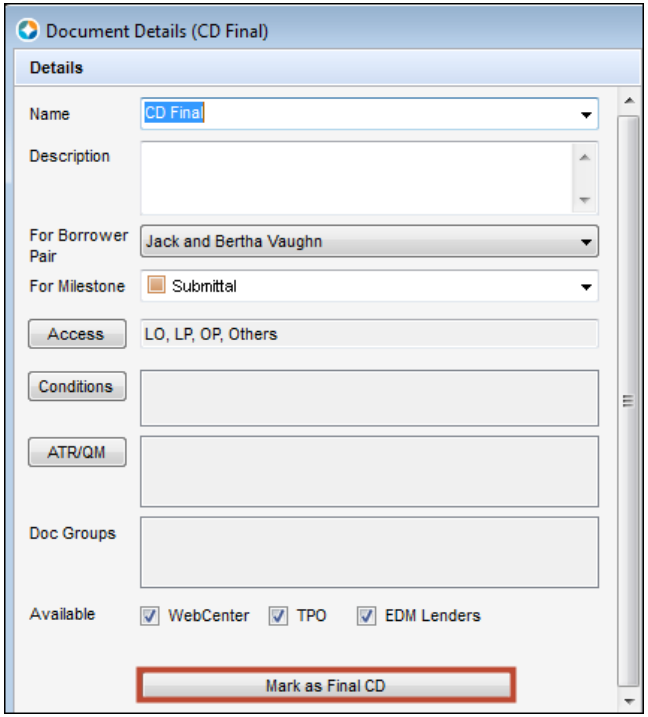
3 In the Add Document window, select **Add a new document**, and then click **OK**.

4 In the Document Details window, select the CD to mark as *Final* from the **Name** drop-down field.

NOTE: *Any CD, be it the standard CD, the alternate CD, or a seller's copy can be marked as Final.*

NOTE: *After selecting the CD file, you can modify the Name field as needed.*

5 Click the **Mark as Final CD** button.



6 In the Signature Type window, select a signature type, and then click **OK**.

7 In the Document Details window, click the **Close** button.

8 In the eFolder window, click the **Close** button.

To Mark a Closing Disclosure (CD) as Final in the Disclosure Tracking Tool:

1 Open the loan file, and then click the **Tools** tab.

2 Click **Disclosure Tracking**.

3 In the Disclosure History panel, click the **New** icon.

4 In the New Disclosure Record window, select the **Disclosure** and **CD** check boxes, and then click **OK**.

5 In the CD Date Issued window, select your preferred CD date, and then click **OK**.

6 In the Print Business Rules window, select missing fields, and click the **Complete Fields** button.

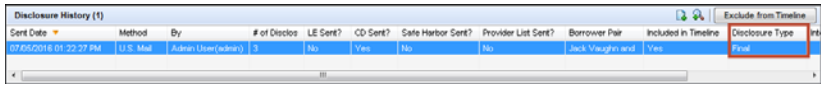
7 In the Complete Fields window, type the missing information, and then click **OK**.

8 In the Print Business Rules window, click the **Print** button.

9 In the Disclosure History panel, double-click the disclosure to open the Disclosure Details window.

10 From the Disclosure Type drop-down list, select **Final**.

11 Click the **OK** button.



Submitting the UCD File to Fannie Mae

Authorized users can access Fannie Mae's UCD Collection Solution by using the Underwriting service or from the AUS Tracking tool.

To Access Fannie Mae's UCD Collection Solution:

1 Open a loan file in Encompass, and then click the **Services** tab.

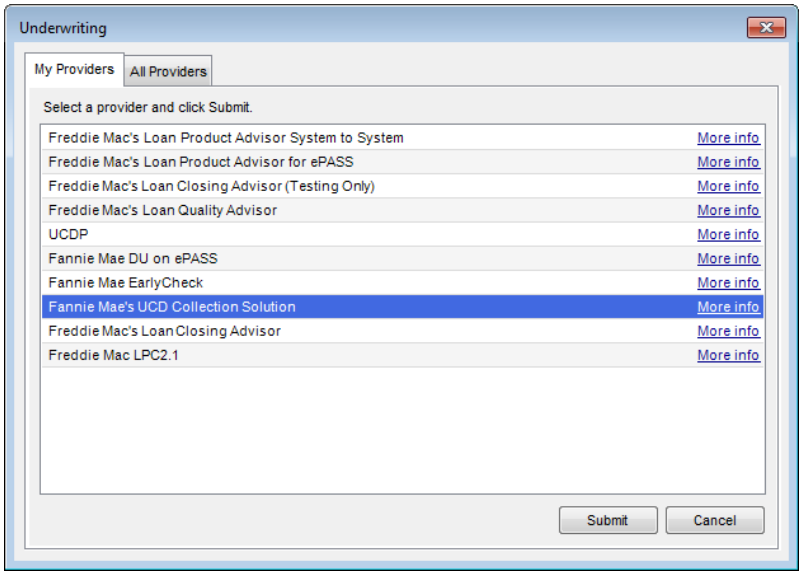
OR

Open a loan file in Encompass, then click the **Tools** tab, and then click **AUS Tracking**.

2 Click R**equest Underwriting**.

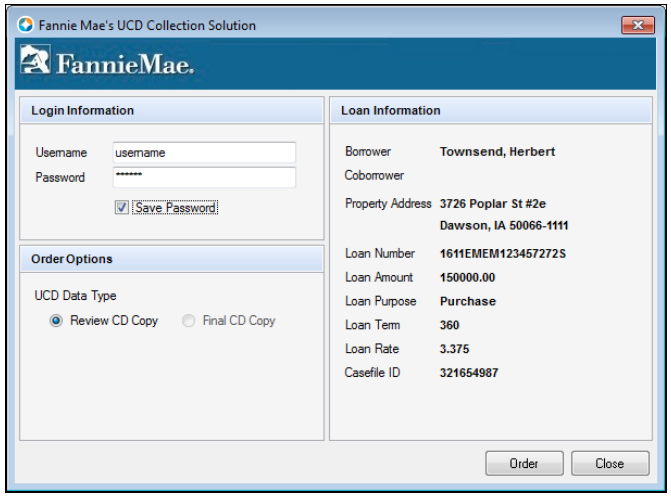
3 In the Underwriting window, select **Fannie Mae's UCD Collection Solution**.

4 Click **Submit**.



5 On the Fannie Mae's UCD Collection Solution window, enter your login information provided to you by Fannie Mae.

- Select **Save Password** to auto-populate the Username and Password fields when you access this window in future loan files.



6 In the Order Options section, select a Closing Disclosure option:

- **Review CD Copy -** Encompass prepares the UCD data (minus the data from the CD marked as *Final* in the eFolder) in an XML file for transmission to Fannie Mae. Note that review copies of the CD can be sent for early feedback, but a final CD copy must be submitted prior to loan delivery to Fannie Mae. The final CD copy with an embedded PDF is what must be delivered to comply with the GSE mandate.
- **Final CD Copy -** Encompass prepares the UCD data plus the data from the CD marked as *Final* in the eFolder in an XML file for transmission to Fannie Mae. An embedded PDF is also included with this Final CD Copy option. The final CD copy with the embedded PDF is what must be delivered to comply with the GSE mandate.

NOTE: *For loans that do not have a Closing Disclosure marked as Final, the* ***Final CD Copy*** *option is disabled. Refer to* *"Marking the Closing Disclosure as Final" on page 15* *for more information.*

7 Review the Loan Information details.

8 Click **Order**.

- Once the order is processed, the UCD Findings Report is displayed to you in the eFolder's Document Details window. A copy of this report is also automatically saved to the Documents tab in the eFolder where you can access it in the future.

To Add Report Findings as Conditions in the eFolder:

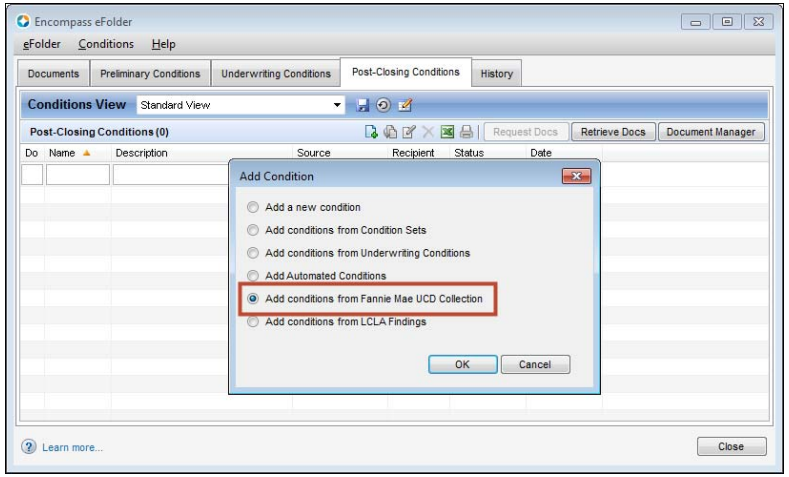
Using the options in the Post-Closing Conditions tab in the eFolder, you can select one or more of the order findings to create post-closing conditions for your loans.

1 Open a loan file, and then click the **eFolder** icon.

2 Click the **Post-Closing Conditions** tab.

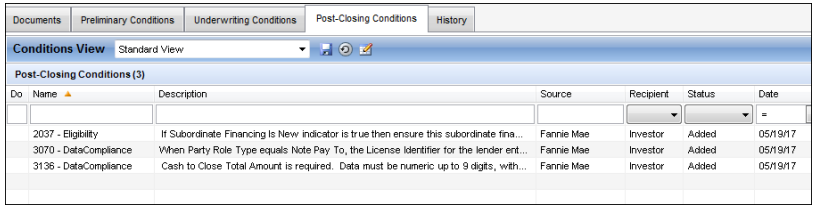
3 Click the **New** icon.

4 Select **Add conditions from Fannie Mae UCD Collection**, and then click **OK**.



5 In the Import Conditions window, click to select the findings to import to the Post-Closing Conditions tab, and then click **Import**.

The conditions are listed on the Post-Closing Conditions tab.



Submitting the UCD File to Freddie Mac

To Access Freddie Mac's Loan Closing Advisor:

1 Open a loan file in Encompass, and then click the **Services** tab.

OR

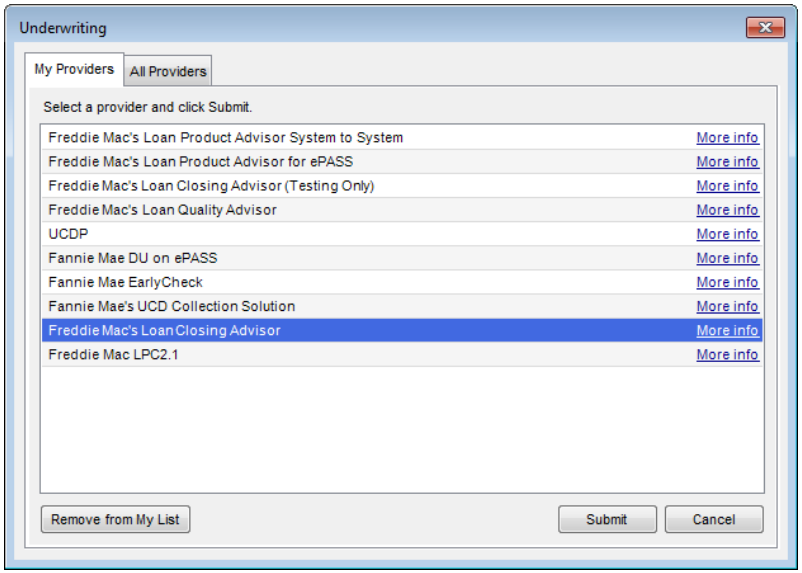
Open a loan file in Encompass, then click the **Tools** tab, and then click **AUS Tracking**.

2 Click R**equest Underwriting**.

3 In the Underwriting window, select **Freddie Mac's Loan Closing Advisor**.

NOTE: *To test your UCD submissions in a testing-only environment, you can select* ***Freddie Mac's Loan Closing Advisor (Testing Only)****. Contact Freddie Mac to receive the required test credentials.*

4 Click **Submit**.



5 On the Freddie Mac's Loan Closing Advisor Request window, enter your login information provided to you by Freddie Mac.

- Select **Save Password** to auto-populate the User ID and Password fields when you access this window in future loan files.

6 In the Order Options section, select a Closing Disclosure option:

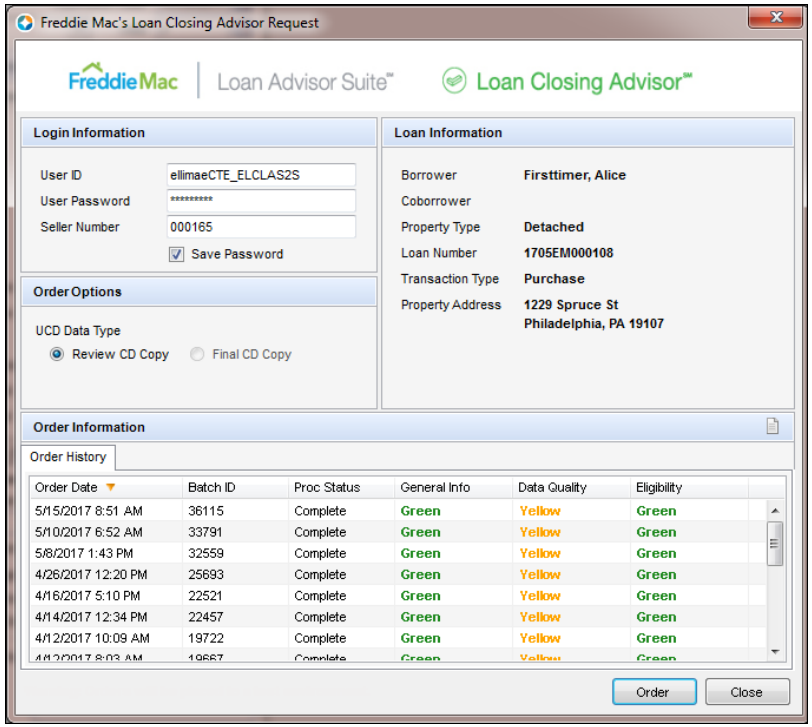
- **Review CD Copy -** Encompass prepares the UCD data (minus the data from the CD marked as *Final* in the eFolder) in an XML file for transmission to Freddie Mac. Note that review copies of the CD can be sent for early feedback, but a final CD copy must be submitted prior to loan delivery to Freddie Mac. The final CD copy with an embedded PDF is what must be delivered to comply with the GSE mandate.
- **Final CD Copy -** Encompass prepares the UCD data plus the data from the CD marked as *Final* in the eFolder in an XML file for transmission to Freddie Mac. An embedded PDF is also included with this Final CD Copy option. The final CD copy with the embedded PDF is what must be delivered to comply with the GSE mandate.

NOTE: *For loans that do not have a Closing Disclosure marked as Final, the* ***Final CD Copy*** *option is disabled. Refer to* *"Marking the Closing Disclosure as Final" on page 15* *for more information.*

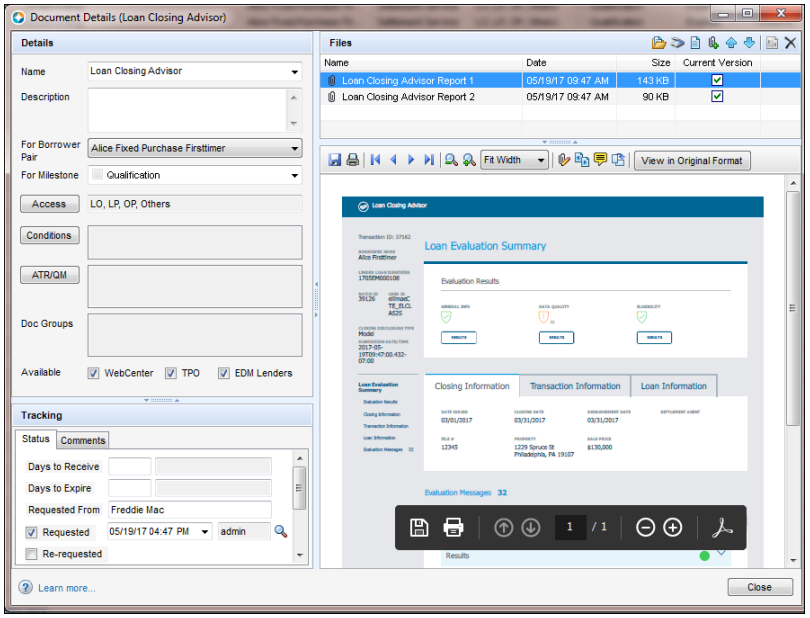
7 Review the Loan Information details.

8 Click **Order**.

- Once the order is processed, a copy of this report is automatically saved to the Documents tab in the eFolder where you can access it in the future. In addition, the order information and details are displayed in the Freddie Mac's Loan Closing Advisor Request window. Click **Close** to close this window.



- To view a copy of the report, go to the eFolder, click the **Documents** tab, and then double-click the document in the list.

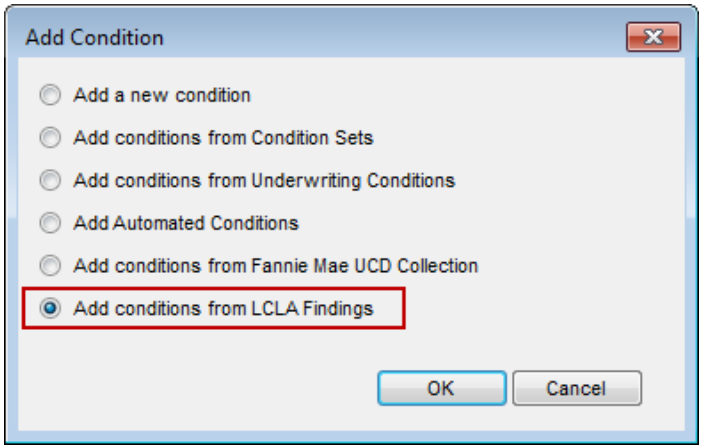


To Add Report Findings as Conditions in the eFolder:

In addition the copy of the report accessible from the Documents tab in the eFolder, you can also use the options in the Post-Closing Conditions tab in the eFolder to view the results of the Freddie Mac submission and then select one or more of the order findings to create post-closing conditions for your loans.

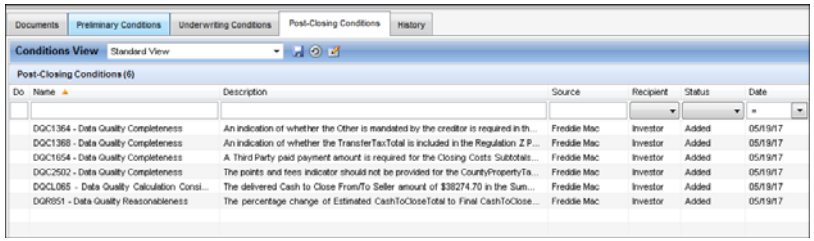
1 In the **eFolder**, click the **Post-Closing Conditions** tab, and then click the **New** icon.

2 Select **Add conditions from LCLA Findings**, and then click **OK**.



3 In the Import Conditions window, click to select the findings to import to the Post-Closing Conditions tab, and then click **Import**.

The conditions are listed on the Post-Closing Conditions tab.



Generating the UCD File From the Pipeline

- Use the *Export UCD* option to download UCD data for loan files to your computer.
- Users need the required access rights (assigned via their persona) in order to use the UCD Export option. Refer to "Grant Access to the UCD Export Option" on page 3.
- Encompass does not support UCD for batch loans at this time. When you generate the UCD file from the Pipeline, the data belongs to the loan you have selected in the Pipeline.
- In order for CD data to be included in the export, the selected loan's CD must have been disclosed, marked as *Final* in the eFolder, and marked as *Final* in the Disclosure Tracking tool
- For loans with a Closing Disclosure marked as *Final*, a PDF version of the CD will be attached to the UCD export file.
- For loans that do not have a final Closing Disclosure, a review copy of the UCD data will be exported (without a final CD attached).

Create the UCD XML File for Export

Use the Export UCD option to export a loan's UCD data in XML format to your computer.

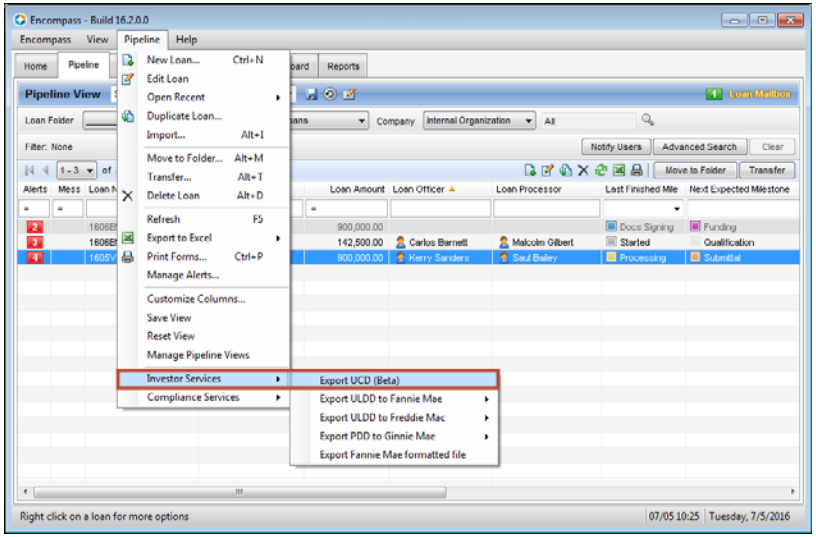
To Export UCD Data:

1 Close all open loan files.

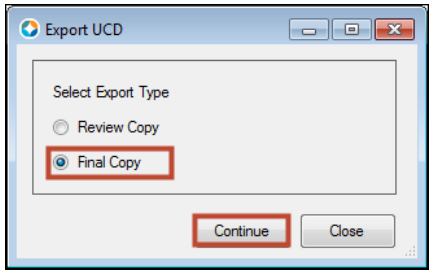
2 Click the **Pipeline** tab.

3 In the Pipeline, click to select the loan. The data UCD data from this loan file will be exported.

4 Click the **Pipeline** menu item, point to **Investor Services**, and then click **UCD Export (Beta)**.



5 In the *Export UCD* window, select **Final Copy** and then click the **Continue** button.

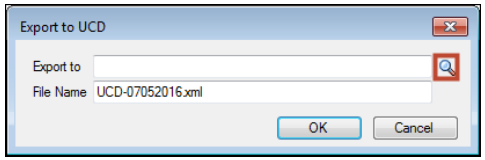


- If the loan has not yet been disclosed, or does not have a CD marked as Final attached to it, a review copy of the UCD data is available for export without data from the CD, and the following message displays:

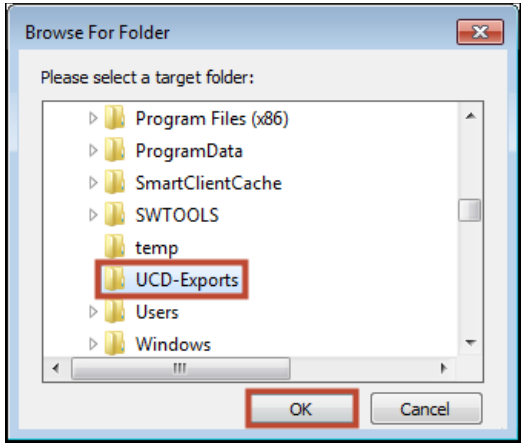
  The Final Copy has not been created. Would you like to export a Review Copy?

6 Click the **Continue** button.

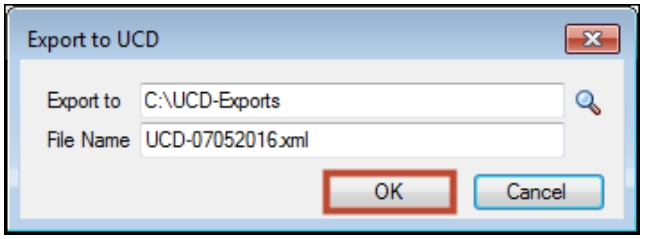
7 In the *Export to UCD* window, click the **Lookup** icon.



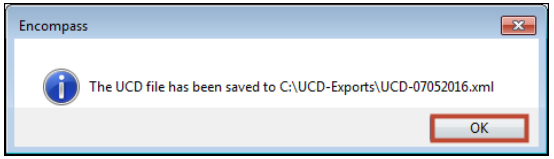
8 In the *Browse For Folder* window, go to the folder in which you want to save your export file, and then click **OK**.



9 In the Export to UCD window, click **OK**.



10 In the confirmation window, click **OK**.



Appendix A

UCD Field Mapping

The Encompass UCD export file is updated regularly to include new fields, remove fields and update the mapping per FHFA regulations to support the required Closing Disclosure data.

Click here to view the *Encompass UCD Field Mapping Guide*. This guide provides the detailed UCD specifications from the GSEs including unique field IDs, MISMO XPath, the required UCD format, and the corresponding Encompass field ID where the UCD data is located.

This guide is also available from the Guides and Documents page in the Encompass online help.
